

Menoufia University
 Faculty of Engineering, Shebin El-Kom
 Architecture Department
 First Semester Examination, 2014-2015
 Date of Exam: 15/1/2015

Subject: Direct Studies in Urban Planning
 Code: URB 660
 Year: Postgraduate/Master
 Time Allowed: 3 hours
 Total Marks: 100 marks

Answer the following questions

Question 1 (60 marks)

Coastal cities face a high risk from increasingly costly flooding as sea levels rise amid climate change. Their current defenses will not be enough as the water level rises. A study led by World Bank forecasts that by 2050, Alexandria, Egypt is leading the cities with the greatest increase in risk. Drawing on your research and other case studies from across the globe, discuss some of the key urban strategies required to address the threats associated with climate change.

Question 2 (40 marks)

Cities of the 21st century should be lively, safe, sustainable and healthy cities. Explain how to achieve Healthy Urban Planning based on the following Key Health Objectives for Planners:

1. Healthy Lifestyle
2. Social Cohesion
3. Housing Quality
4. Access to Work
5. Accessibility
6. Safety
7. Equity
8. Climate Stability

With our best wishes
